Mr. Wisner gave the Director the JCS reply in regard to O/PC coordination with the Joint Chiefs and theater commanders. Mr. Wisner believes that this reply is satisfactory.

Mr. Wisner mentioned the unresolved difficulties under NSC 10/3 and stated that Mr. Becker has produced a paper. There is some split on the staff level in regard to the amount of power that this paper gives to the JCS. The Director stated that in time of war we must realize that the military will get just about what they want. The DCI wants to see Mr. Becker's paper after it has been shown to Mr. Jackson.

Mr. Wisner reported that Mr. Barrett's area in State Department was becoming somewhat upset about Radio Free Europe and the NCFE. State Department seems to believe that the increasing excellence of these organizations will create an unfavorable comparison with VOA.
